

Individualized neurointensive care with ICM + in northern Norway

Shirin K Frisvold, MD PhD
ICU consultant
University Hospital Northern
Norway

Why are we here?

WHEN THIS LINE
GOES FLAT AND
THE BEEPING STOPS,
CALL ME!

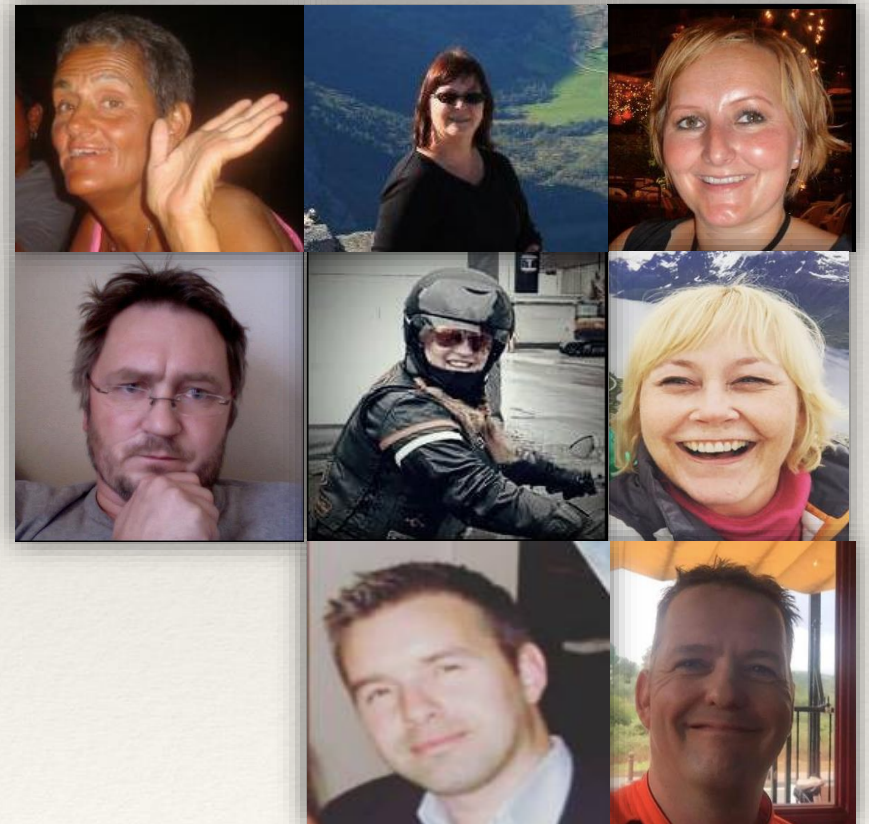

When ICP goes above 20,
call me!

REVIEW

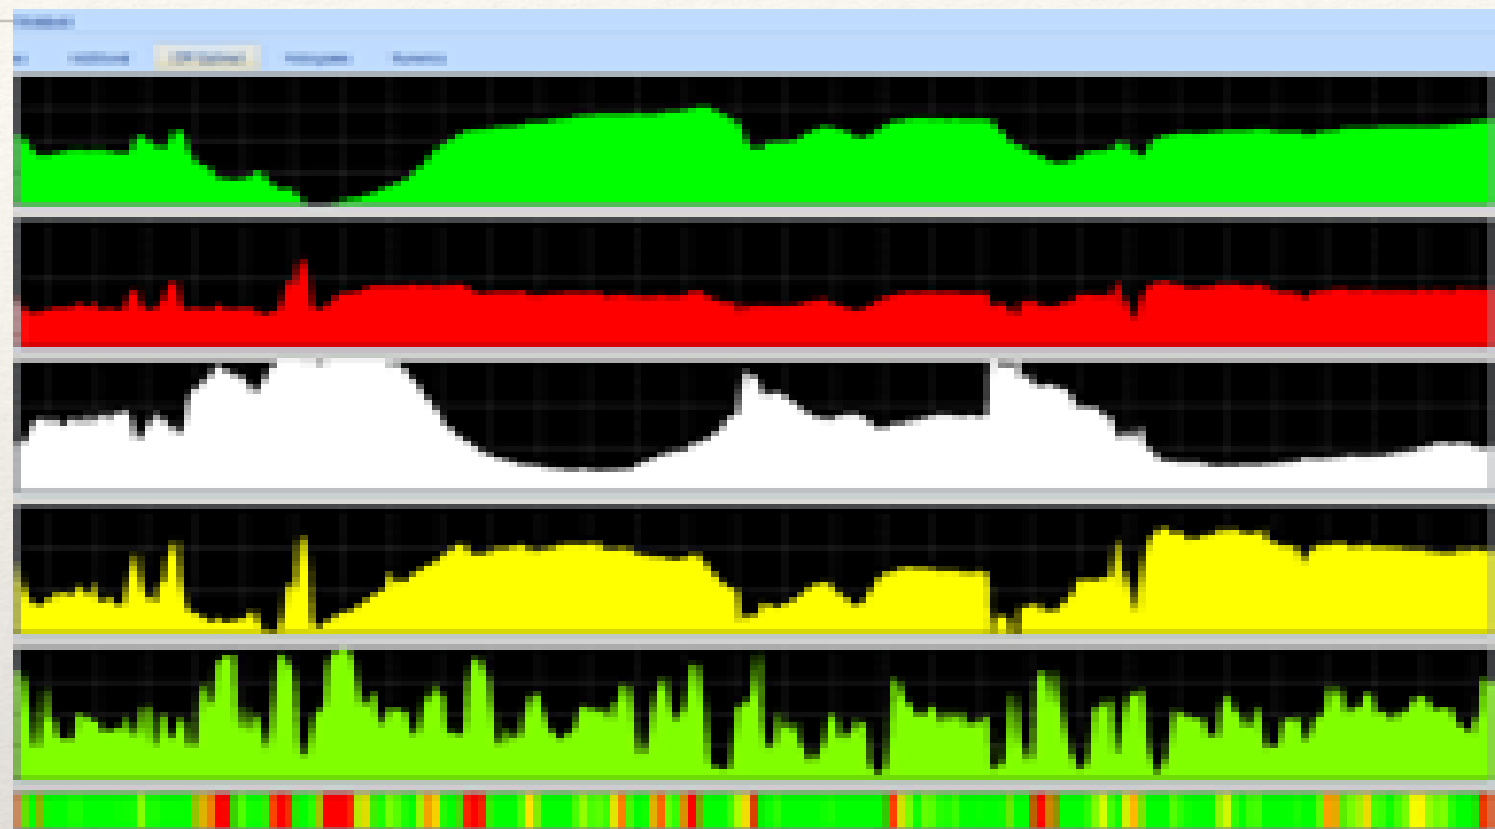

Preliminary guideline- and pathophysiology-based protocols for neurocritical care

Yasuhiro Norisue^{1,2*}  Yoshihisa Fujimoto¹ and Kazuma Nakagawa³

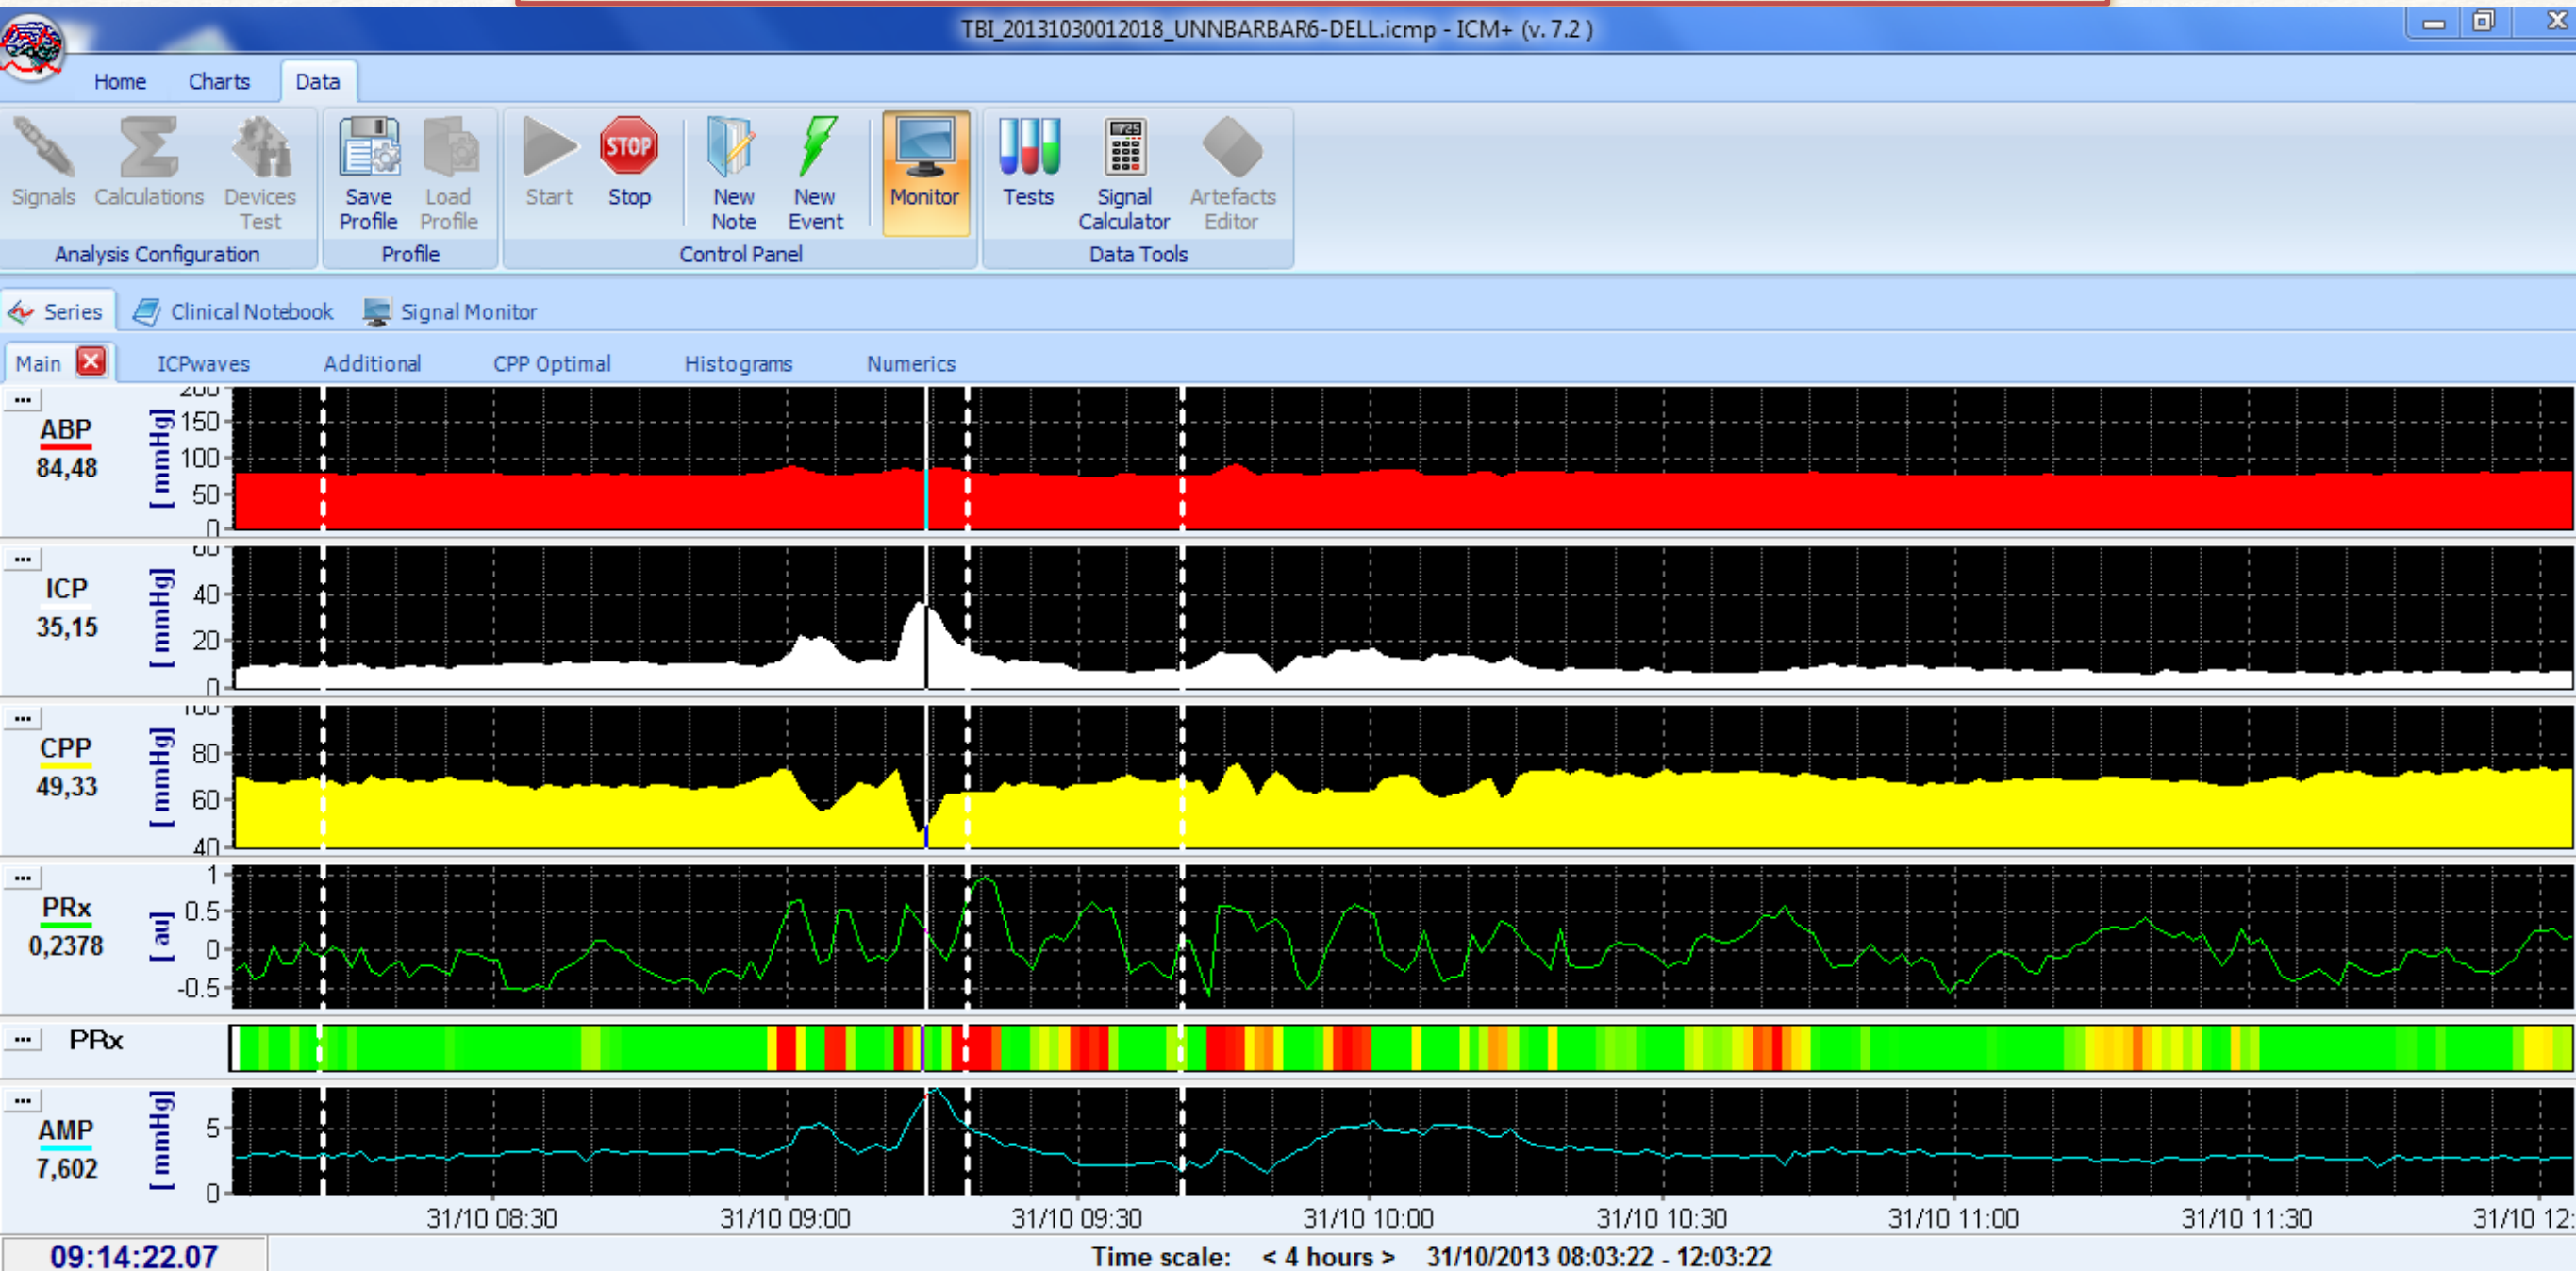

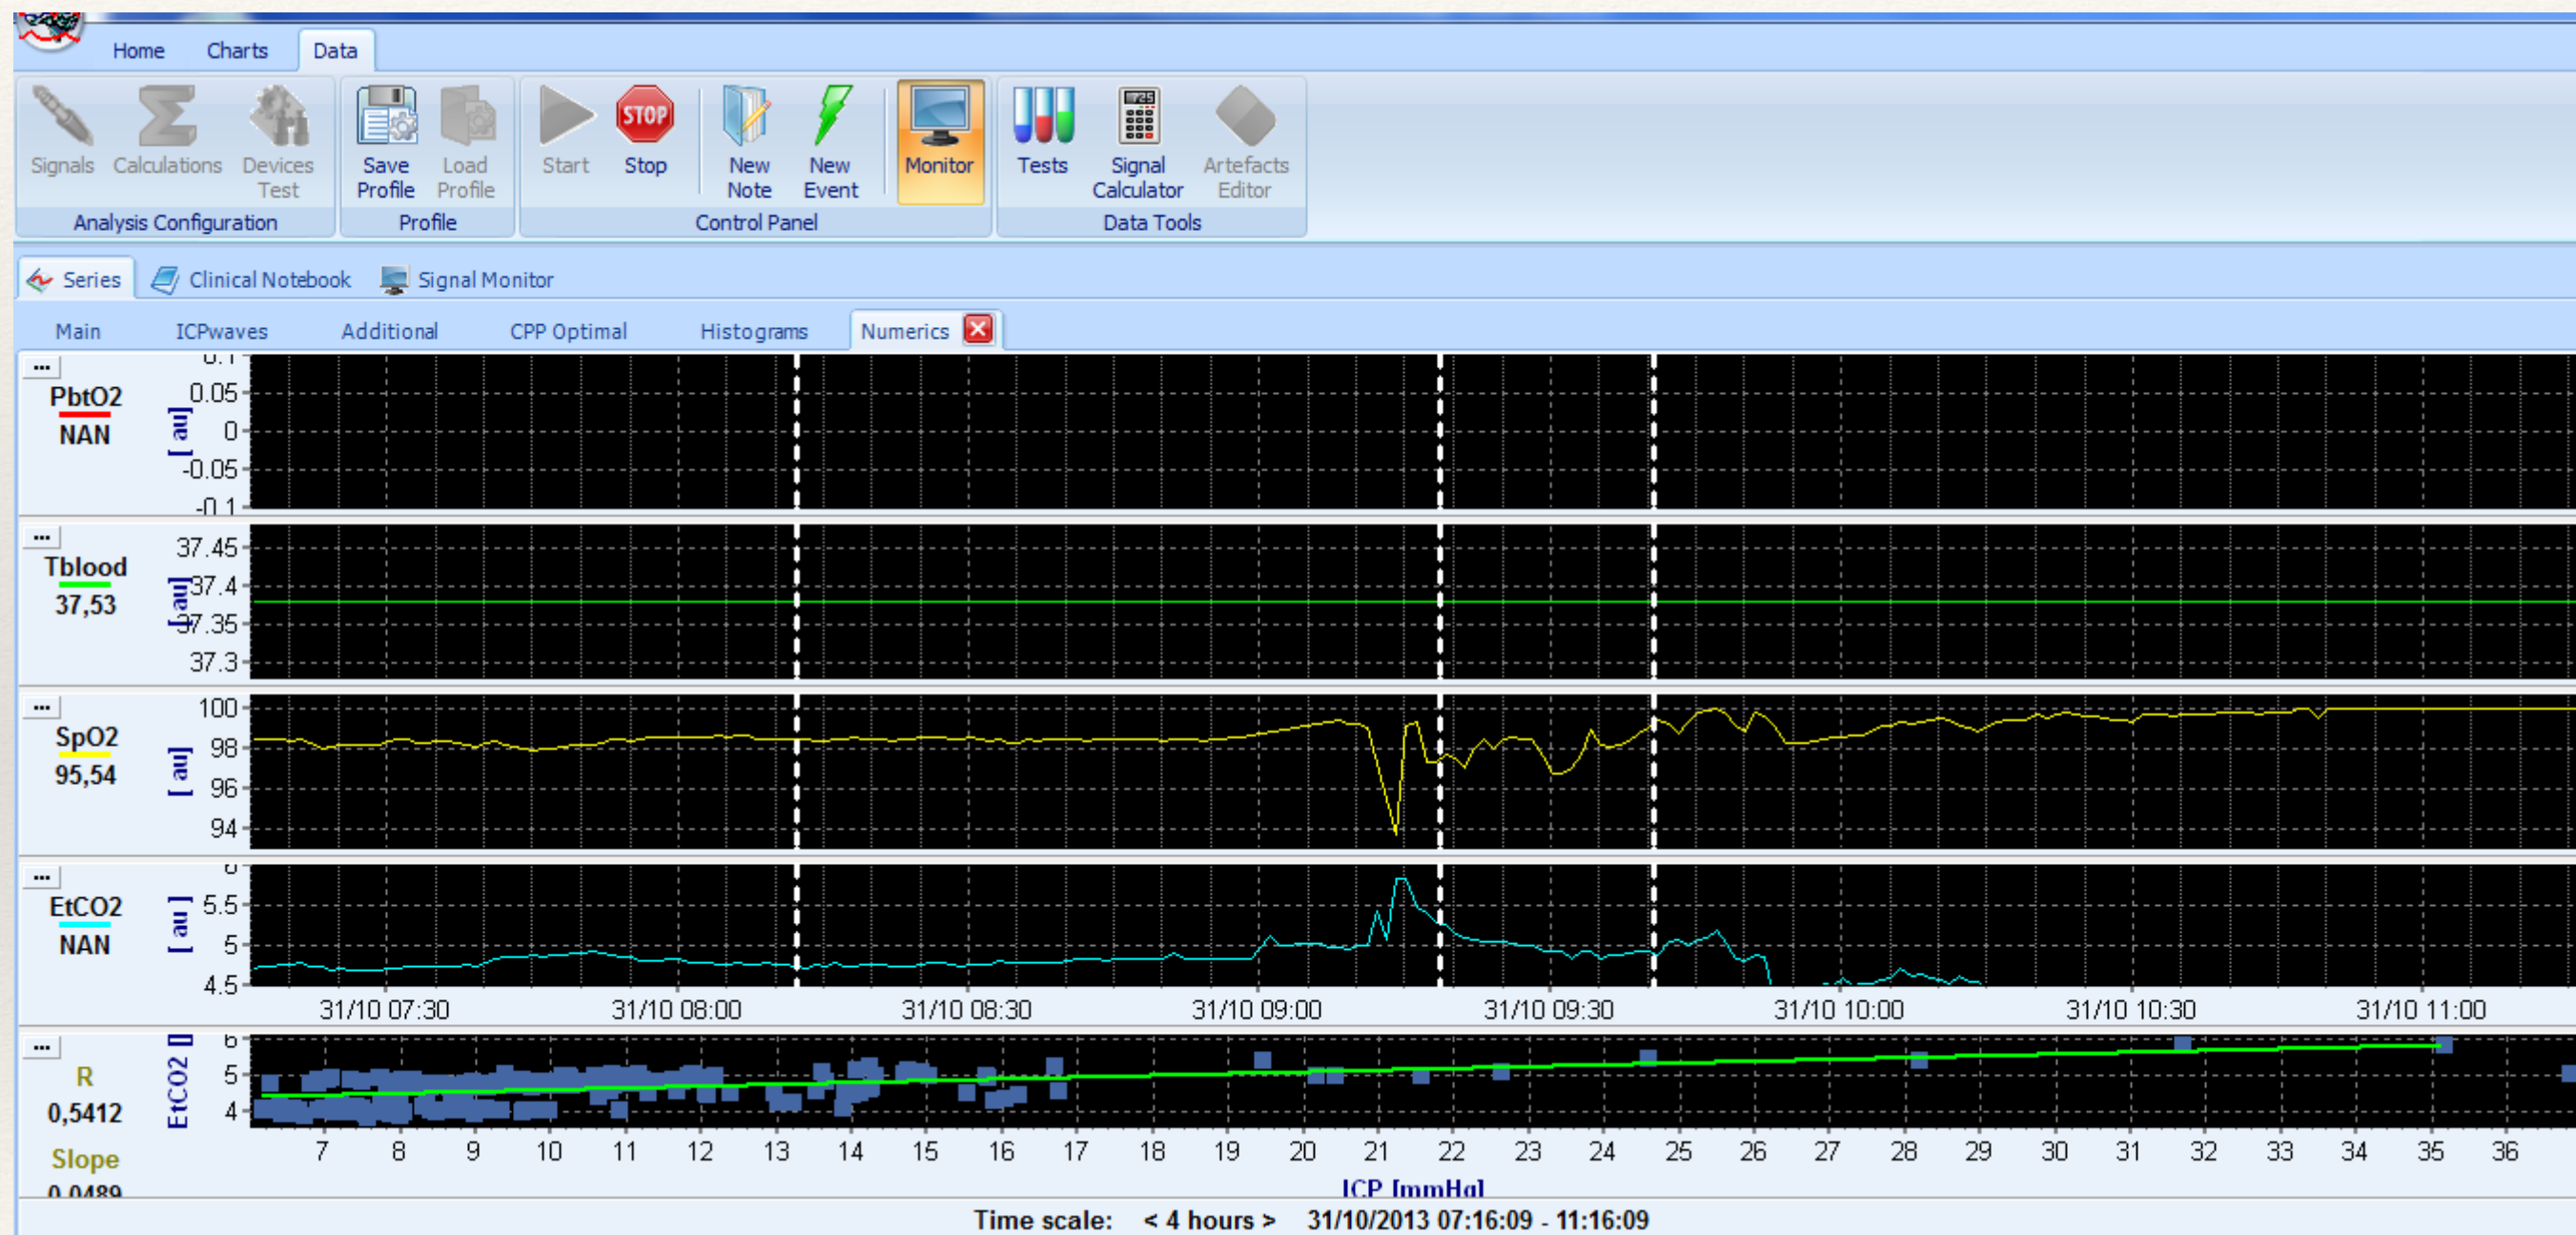

1. ICM + Online monitoring?

“Dr, the patient has had
“spontaneous” ICP increases...”

EtCO2 correlation

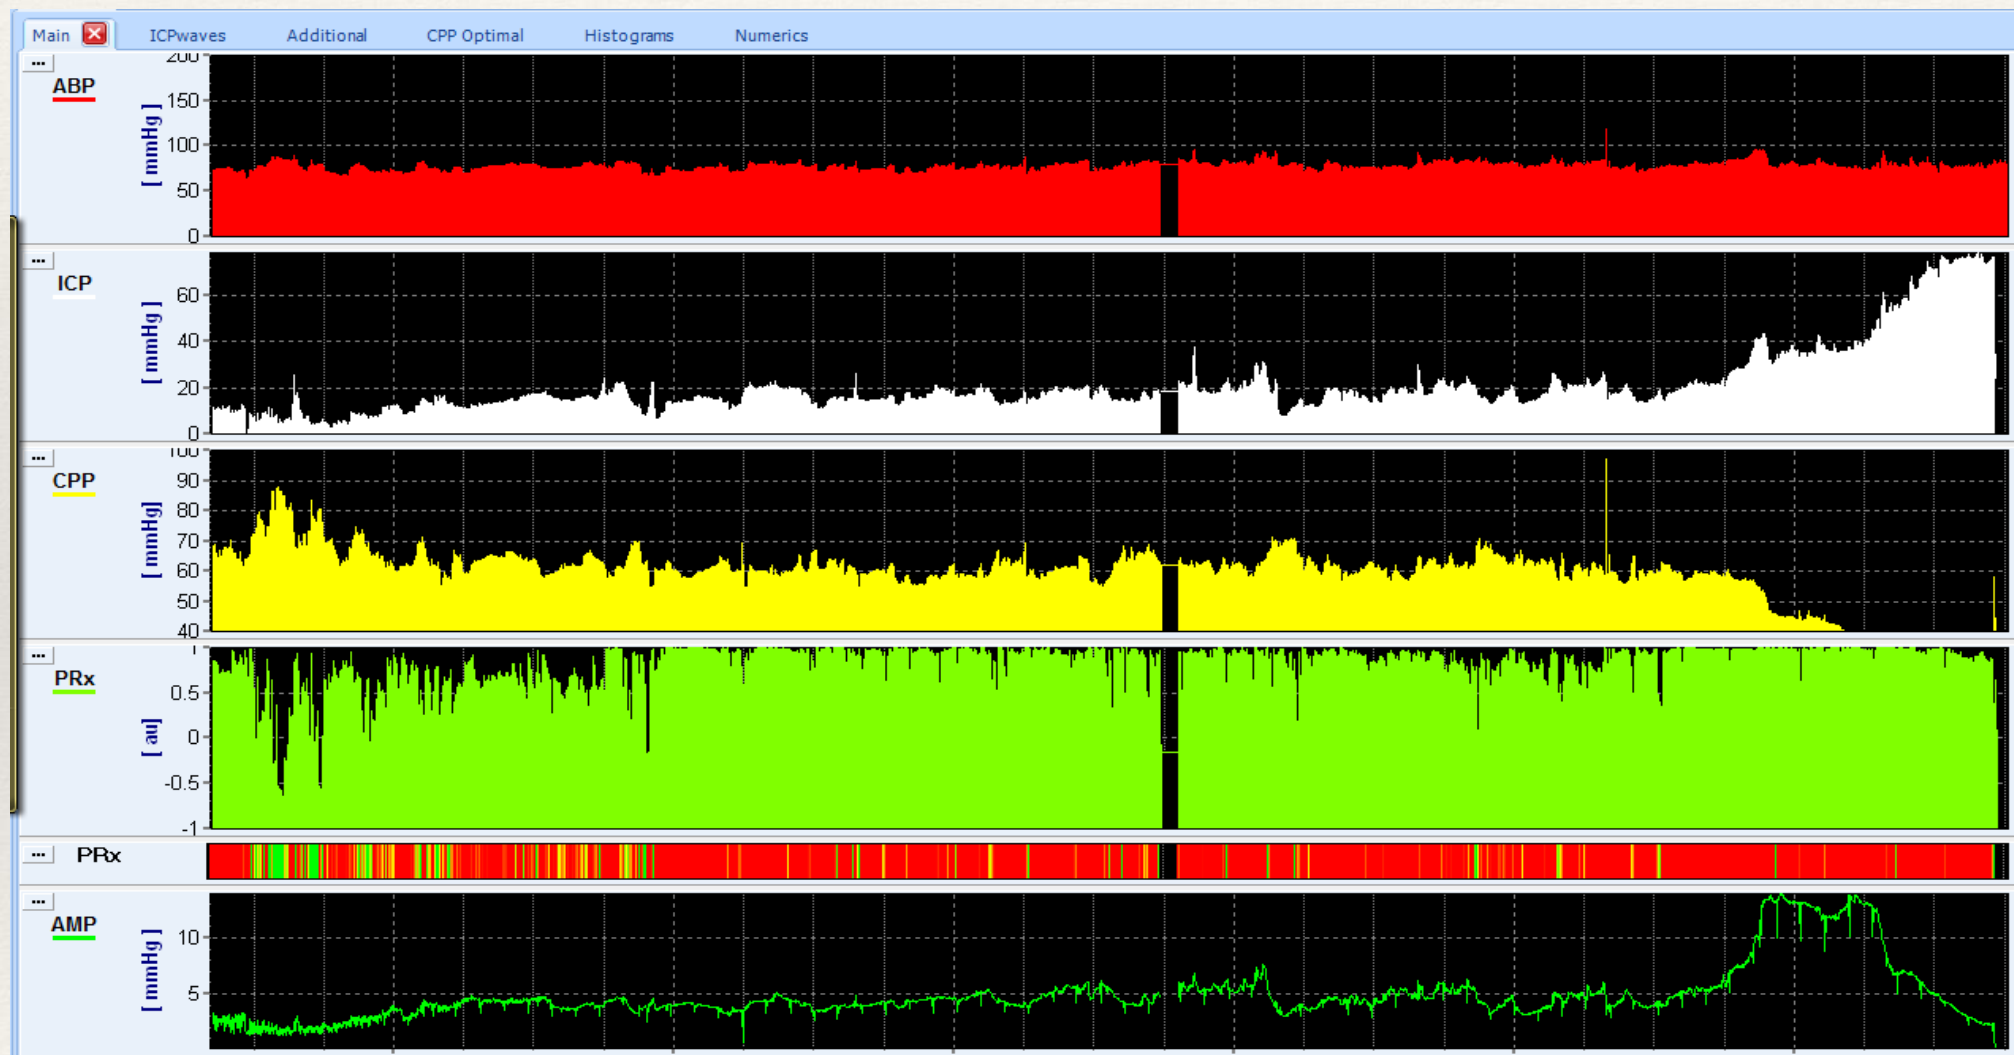

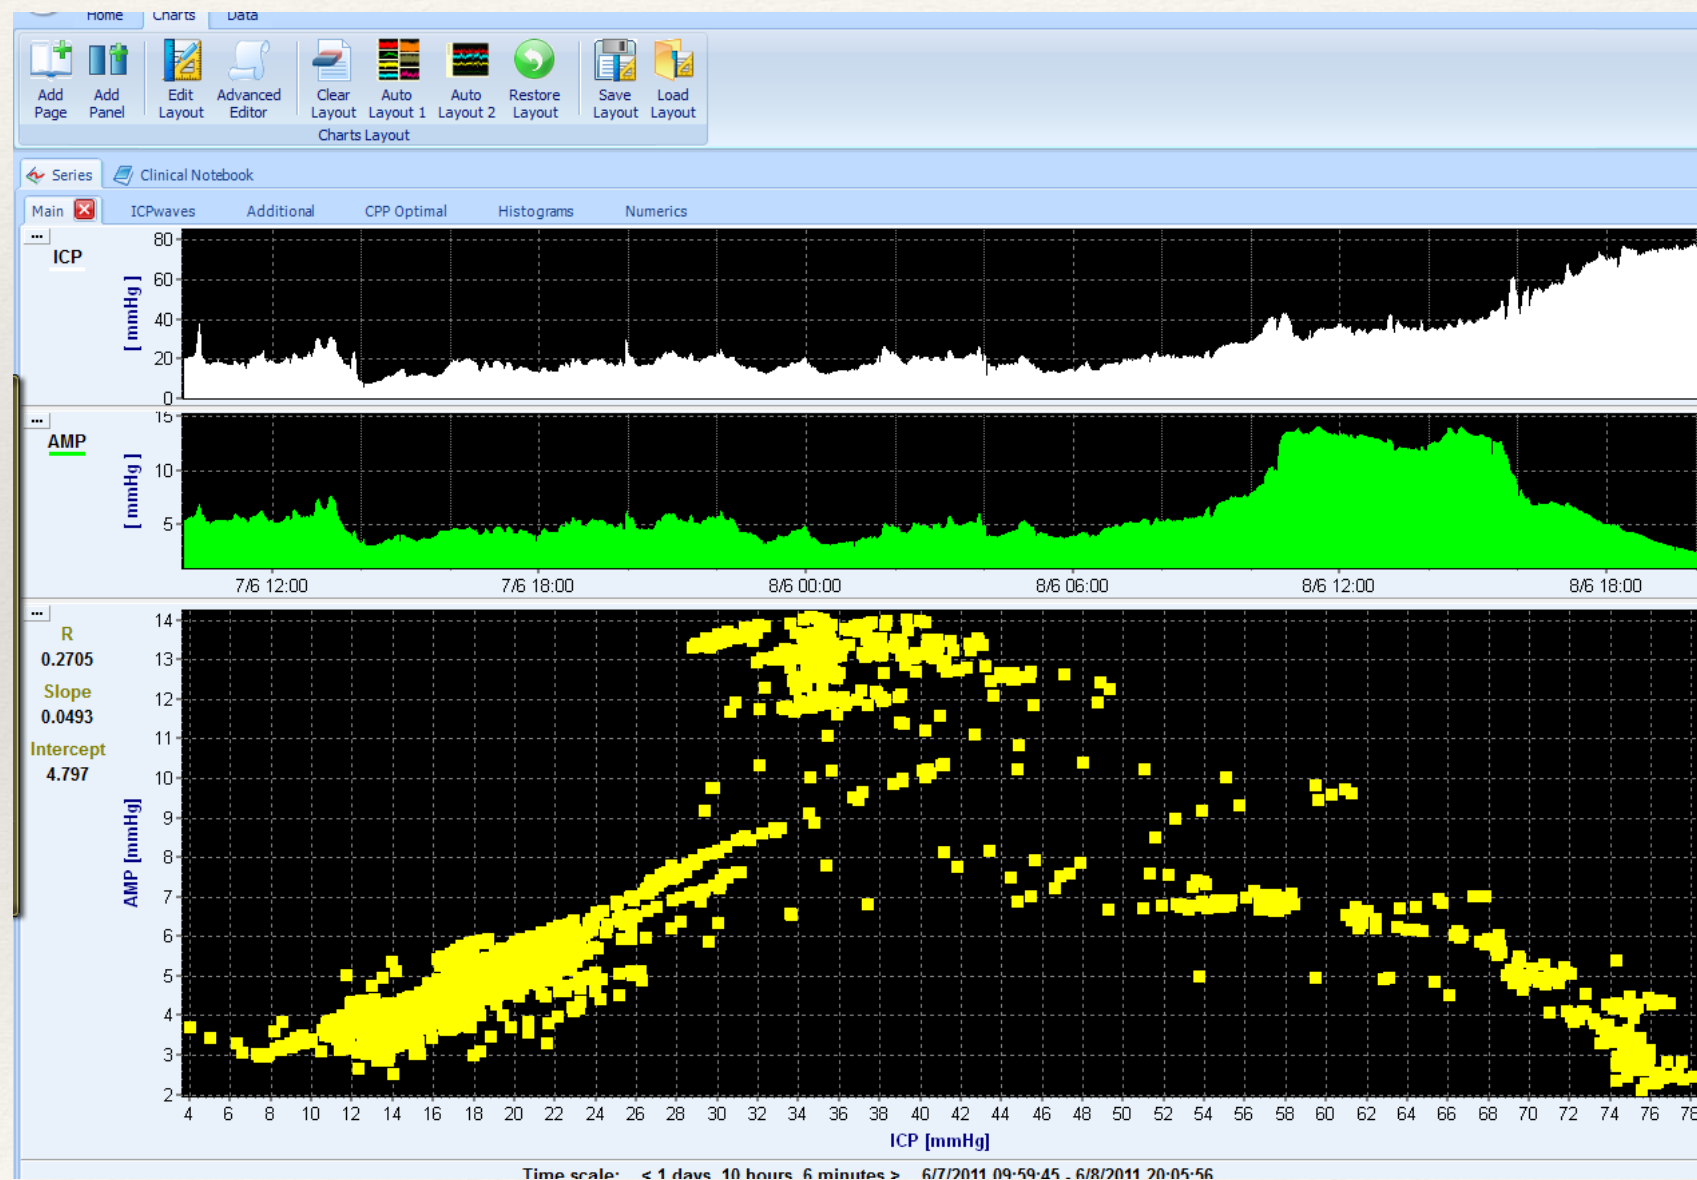

2. Individualize CPP

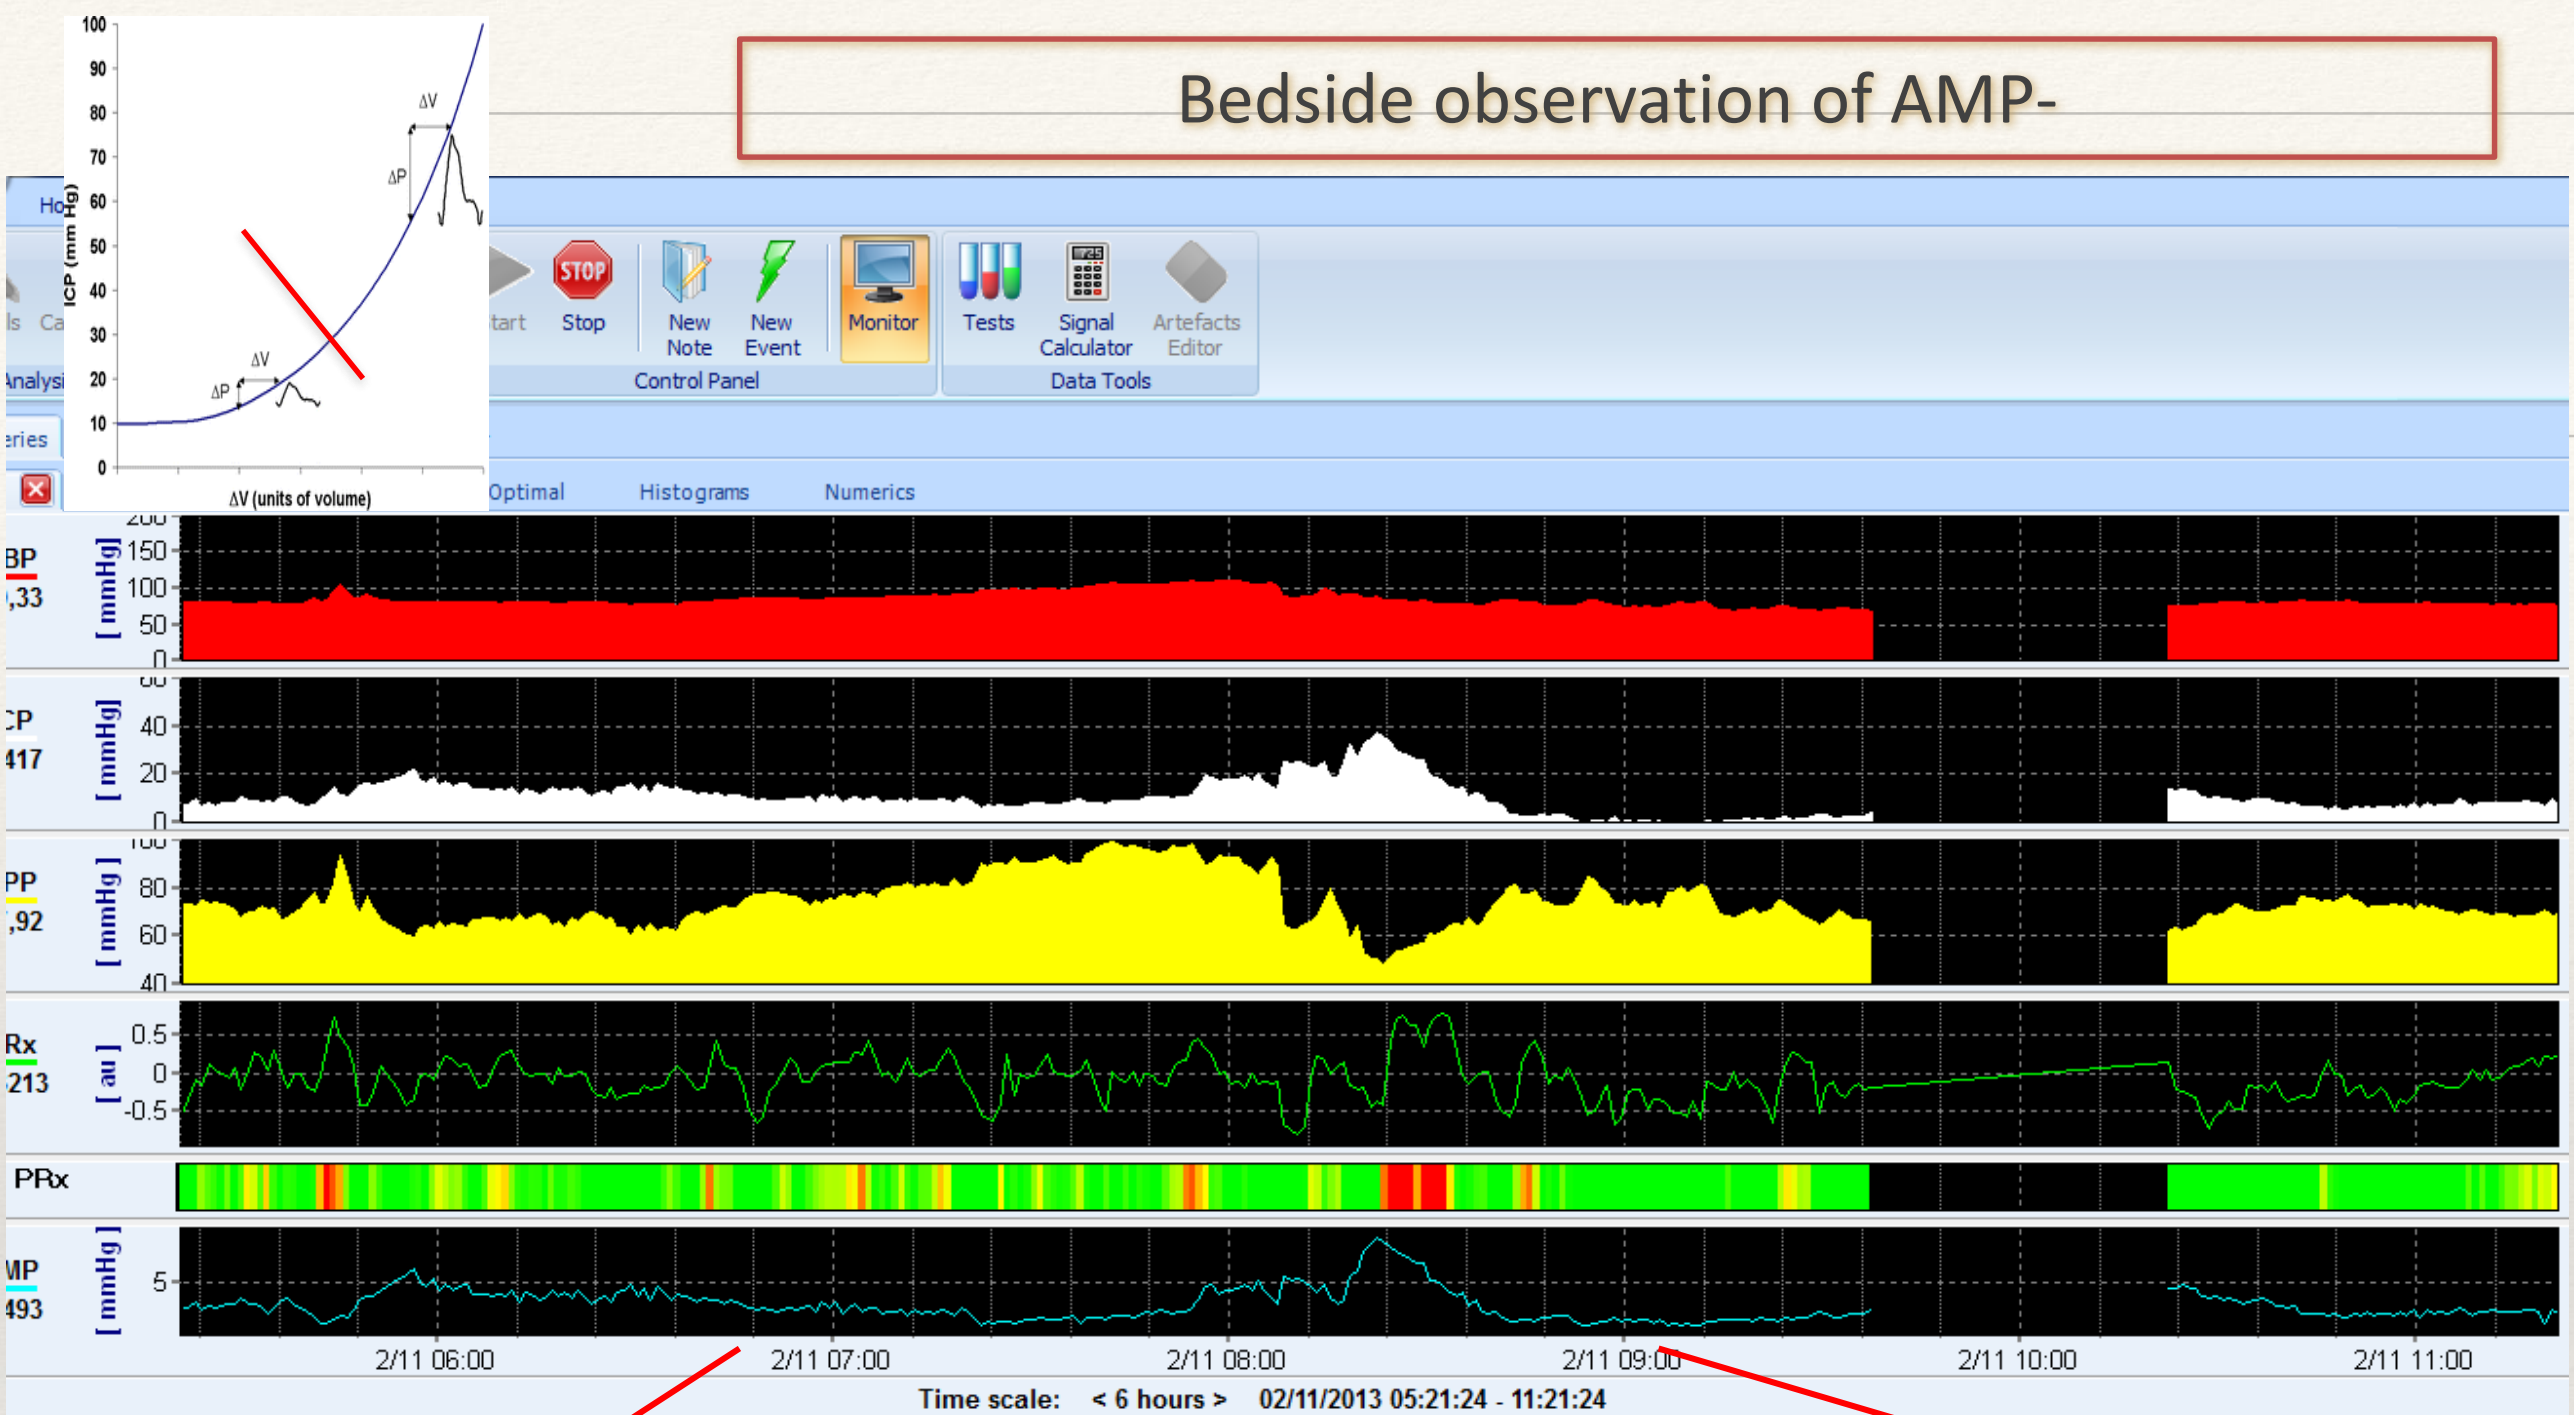

Understanding brain physiology

Herniation

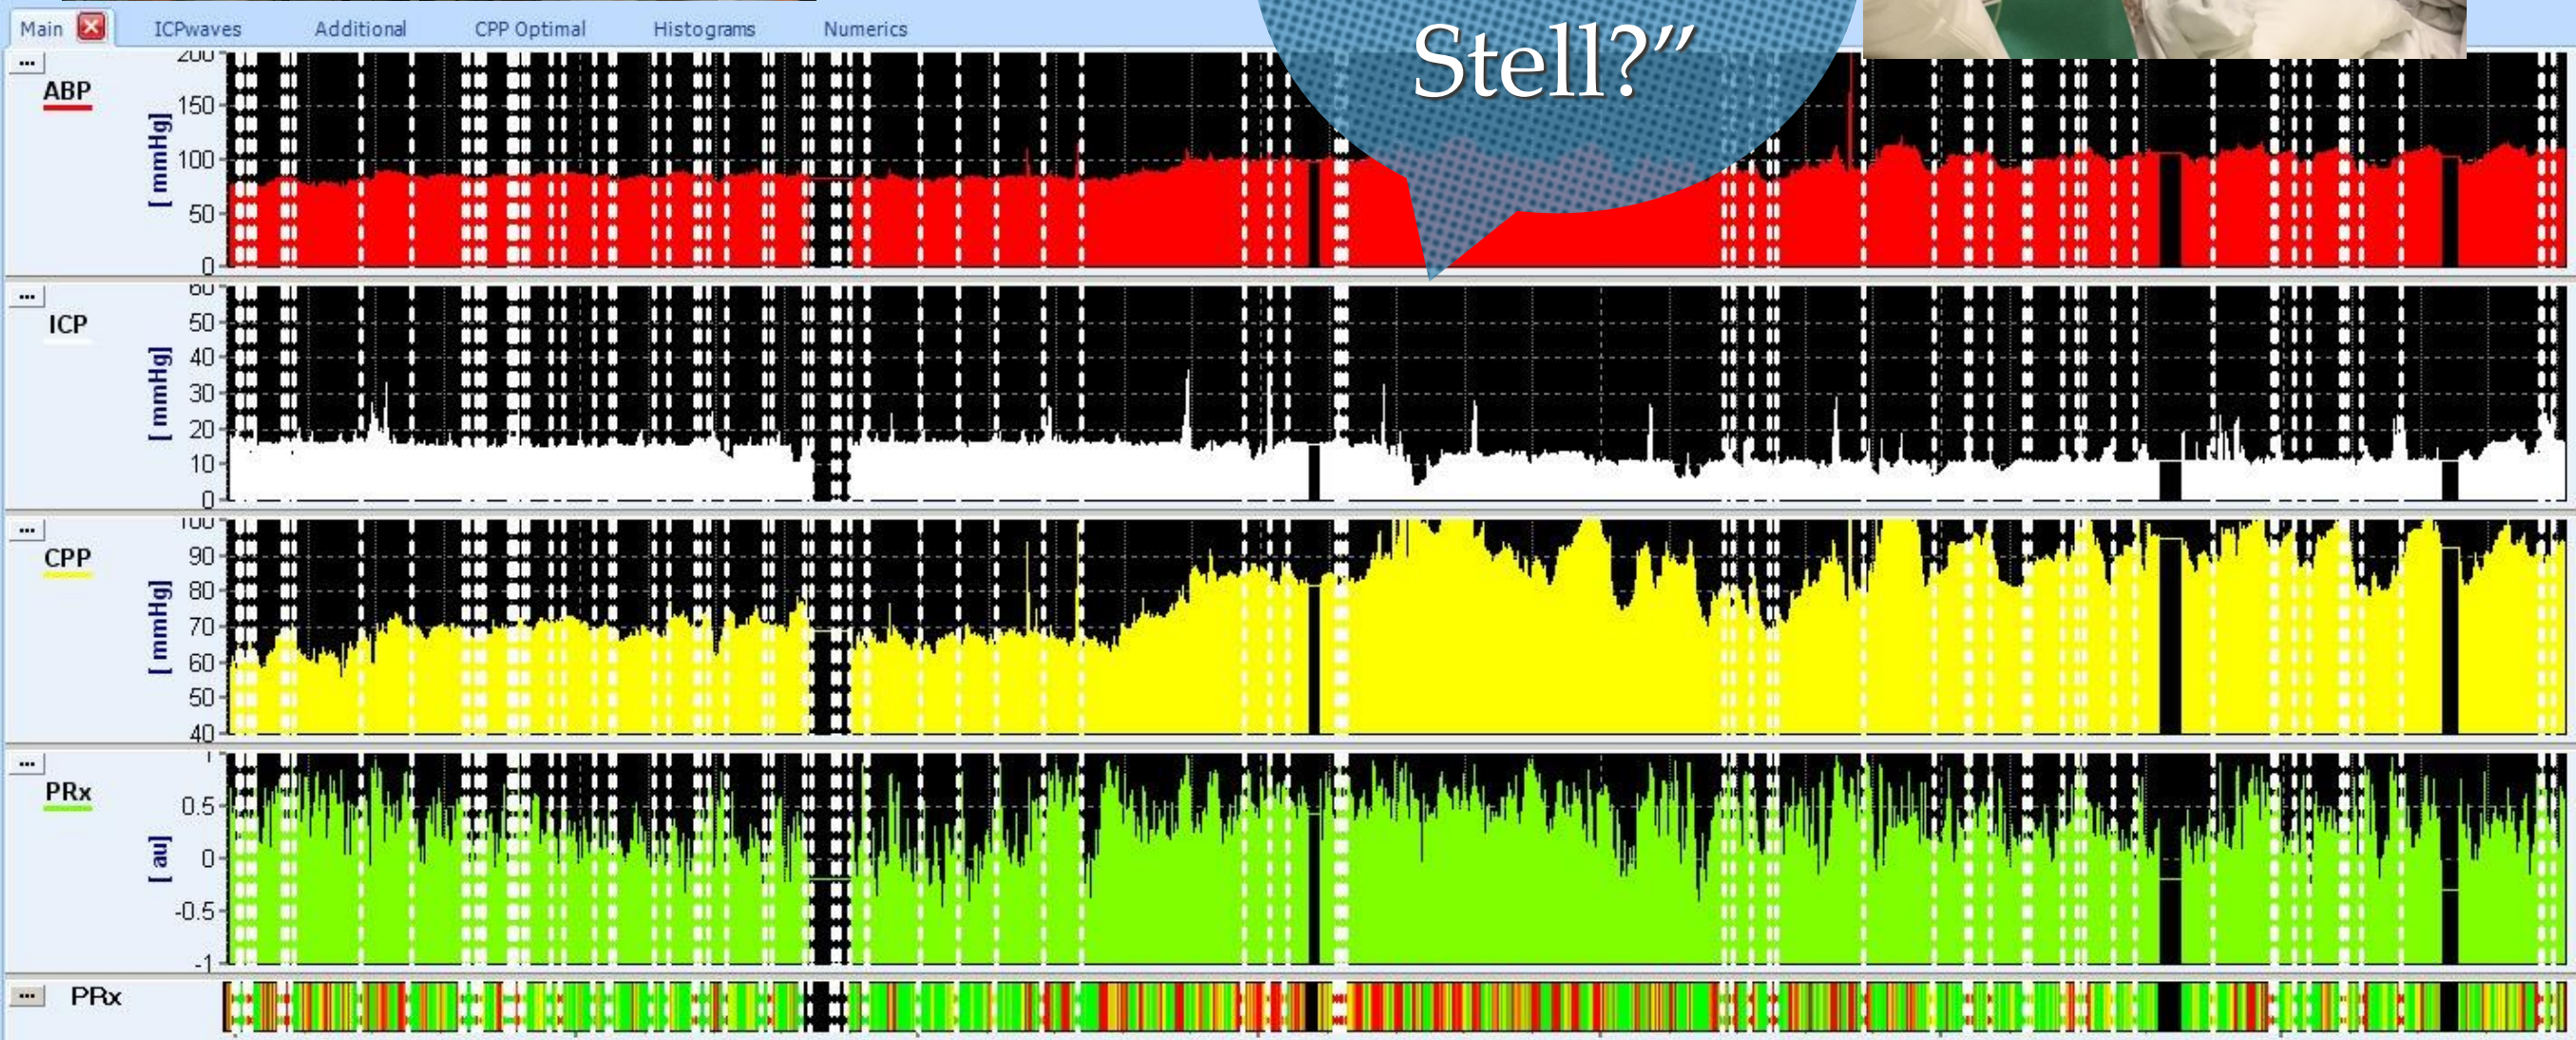

Bedside observation of AMP-

Notations...
